HIDDEN TREASURES

Directed & Designed by **Kenny McGlashan** Written by the **The Company** Music by **Tim Brinkhurst**

An interactive and accessible show created for a young audience

Where do our forgotten stories hide? Look closely and you might see there are treasures hidden in the cracks of the pavement. Magic lives in the strangest of places. But once you know how to spot it, you have the key to a very special place!

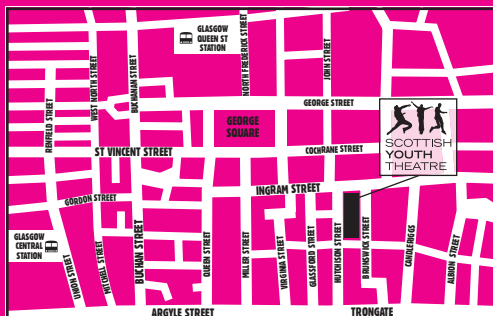

Hidden Treasures is a show for all the family. Come and join this magical journey and meet some of the characters from Scotland's long forgotten fairy tales. Hidden Treasures is a new production that has been devised by a company of young actors who are participants on Scottish Youth Theatre's Summer Festival. Come along to see the best of young Scottish talent in this new show created especially for a young audience (ages 3+).

Scottish Youth Theatre is Scotland's national Theatre 'for and by' young people. You can find out more information about the company at www.scottishyouththeatre.org
